## FROM WEST INDIES TO BRAINERD HOME COMING

### LIEUT AND MRS. OCCHINERO FROM ISLAND LAROMONA

RAILWAY COMMITTEE BUSY AND HAS POSTERS UP IN N. P. AND M. & I. STATIONS

500 AUTO BANNERS ARRIVED MONDAY AND ARE BEING GIVEN WIDE DISTRIBUTION

The record for long distance traveled to attend Brainerd's 50th anniversary and home coming celebration will probably have to be awarded to Lieutenant and Mrs. George Occhinerio of the Island of Laromona, Porto Rico, West Indies, who traveled from South America to New York and thence overland to Brainerd and are now in the Twin Cities, expected soon in Brainerd.

Mrs. Occhinerio is a sister-in-law of Charles Stadlbauer and following receipt of the home coming invitation Lieut. and Mrs. Occhinerio made preparations to be at Brainerd early and not miss a single day of the festivities. Mrs. Occhinerio was formerly Miss Gertrude Peterson, was born in Brainerd, and attended school here and has a wide acquaintance in the city.

**Railway Committee Busy**  
The railway committee having in charge Railroad Day has given the celebration much mention. Through A. B. Smith, general passenger traffic manager of the Northern Pacific railway company, permission was secured whereby Mr. Smith will have posted special literature secured by the railway committee and which will be given prominent display in Northern Pacific railway stations in a wide radius from Brainerd, plus also all stations along the Minnesota & International railway.

**500 Auto Banners Here**  
The 500 auto banners came today and, despite the rain, several boys are out selling them.

The inscription reads: "Brainerd's Fiftieth Anniversary and Homecoming, July 3 to 9." The colors are black on white. It is a banner that stands out in bold relief and should give very good publicity.

No car owner should refuse to have one of these banners on his car. It is for the good of the Homecoming. The banners are being sold at cost at 25c.

Kenneth Bouma, Harold McBride, Laurel Paulson, Leland Avery, and Gerald Schrader started work at one o'clock. They hope to dispose of many, even if it is raining.

(By United Press.)  
Ossining, N. Y., June 19.—A killer is loose from Sing Sing.

### ADA MAN CUTS THROAT IN SHERMAN HOTEL, ST. PAUL

(By United Press.)  
St. Paul, June 19.—A man, believed to be Ole Moe, Ada, Minn., committed suicide by cutting his throat, at the Sherman hotel this morning. Police are attempting to find a motive for the act.

The man had registered half an hour before he was discovered with his throat cut, by J. B. Johnson, Fisher, Minn. He was to have been employed as salesman for a St. Paul wholesale hardware company, according to a letter found in his pocket.

Among the letters were found several unpaid bills which led police to believe that he may have been in financial stress.

The body was removed to the county morgue, and the coroner is attempting to locate relatives.

### SHIPS COLLIDE, BOTH REPORTED SINKING

Jacksonville, Fla., June 19.—Telegraphic advices received here today from Key West reported the steamers Bella and De Soto to be "in sinking condition" and added that a coast guard cutter was removing "the survivors." The dispatches gave no details as to the cause of the disaster to the two ships, nor their immediate position.

The Bella is listed in the marine registry as a freighter of 781 tons and the De Soto as a tanker of 360 tons. Private advices reaching here indicated the vessels had collided. The steamer Borgestad was said to have aided in taking off members of the crews.

### VOLCANOES WILL RUN SUGAR MILLS

(By United Press.)  
Honolulu (By Mail).—Boring with a giant churn drill into the Kilauea on the island of Hawaii was begun a few days ago.

The purpose is to attempt to pipe and utilize either steam or gas of the volcano for industrial purposes, especially for furnishing power for the island's many sugar mills.

Steam heated to 90 degrees centigrade was struck ten feet down. Further drilling is proceeding in order to try to tap steam under enough pressure to make it commercially useful.

If volcanic force can be used for industrial purposes, Hawaii will come close to having free power, and a near approach will have been made to "perpetual motion."

### GIANT SHARK KILLS GIRL SWIMMER IN TAMPA BAY CHANNEL

17-YEAR-OLD GIRL COMPANION SUPPORTS DYING GIRL AFTER BEING ATTACKED

(By United Press.)  
Tampa, Fla., June 19.—Terror of a "tiger of the sea" kept bathers in Florida waters close to the shore today, following a tragedy in which Dorothy McCatchie, champion girl swimmer, was bitten to death by a giant shovel nose shark.

Mary Behner, 17, companion of Miss McCatchie on the fatal swim, will be recommended for a Carnegie medal for her heroism for holding the dying girl in her arms and signaling for help from shore after the shark had made the attack.

Two deep wounds in the girl's leg proved fatal, and she died in her companion's arms. The girls were swimming in the ship channel of Tampa bay, off St. Petersburg, a mile from shore. Both were members of the state champion swimming team.

Just as they reached the channel buoy, Miss Behner was terrified to see her companion drawn beneath the surface by some invisible force. A moment later she came to the surface, the water about her dyed with blood. "I have been bitten," she gasped, "my leg," and she went down again.

Miss Behner, terrified, working vigorously with her feet to fight off the attacking shark, supported the rapidly weakening girl.

A large artery in the girl's leg had been cut, and she was unable to do more than cling weakly to Miss Behner's shoulder. Help was sent out, but by the time the motor boat arrived, Miss Behner had held up her friend for half an hour. She was dead when help arrived.

(By United Press.)  
Washington, June 19.—Congress was asked in a bill introduced by Representative Edmonds, republican, Pennsylvania, today to bar from the American coast any vessel, domestic or foreign, which carries or sells intoxicating liquor. ### MILLIONAIRE ANGRY BECAUSE NATURE OF OPERATION IS KNOWN

HAS GLANDS OF POOR YOUTH GRAFTED INTO HIS BODY THAT HE MAY BE YOUNG

RUSHING PREPARATIONS TO GO TO EUROPE THAT HE MAY WED OPERA STAR

(By United Press.)  
Chicago, June 19.—Equipped with the elixir of youth, Harold F. McCormick, ordered arrangements rushed today for his romantic trip to Europe with his daughter Mathilde.

From his bed at Wesley Memorial hospital, where life giving glands of a poor youth were reported grafted into his body, the millionaire harvester king directed plans for taking him to Paris within a month.

There, after seeing his 17-year-old daughter and ward Mathilde safely married to Max Oser, his Swiss lover, he will be free to wed Ganna Walska, Polish opera star.

McCormick's recovery from the operation which was performed at midnight last Monday in a secluded ward and guarded suite of the hospital, has been rapid. Physicians feared for a time that his recovery might be retarded somewhat by his anger following his learning that the nature of the operation had become public. So anxious was McCormick that no publicity be given to the operation, that he is reported to have rebuffed the fee of Dr. Lespinasse, noted gland specialist, in case no word of the operation leaked out. The agreement is understood to call for payment of \$75,000 in case the secret of the operation was kept.

High pitched voices and angry words were heard coming from the McCormick suite during a conference after the patient read the Sunday papers containing details of the operation. Guards surrounding the hospital and in front of the McCormick mansion were doubled. Four men were constantly in the corridor leading to the McCormick room. Other guards were stationed under windows and around the hospital at frequent intervals.

Cork, the stronghold of the republicans, has been carried by candidate Michael Collins.

M. McSweeney, wife of the late Lord Mayor of Cork, was the only republican candidate elected to the constituent assembly.

The defeat administered the republican forces was taken in bad grace by Eamonn De Valera, the republican chieftain, and declared Michael Collins was breaking his word regarding the proposed coalition.

Lord Mayor O'Callaghan, of Cork, expected to be one of the strongest anti-treaty candidates, was at the bottom of the list. Complete returns for the south will not be in until tomorrow.

### TWO PROMINENT MILL CITY WOMEN LOSE LIVES IN FIRE

Koon, and Miss Lucy Gilbert, for 25 years head of the Art department of the Minneapolis public library, lost their lives when the La Follette club house on Minnetonka beach, Lake Minnetonka, burned to the ground early yesterday morning.

LaFollette club was one of the most fashionable lake resorts. It was composed of a two story building and two guest cottages.

Loss to the building was estimated at approximately \$150,000. Loss to guests, including thousands of dollars worth of diamonds, was estimated at between \$35,000 and \$50,000. Officials said the loss was fully covered by insurance.

### RAIL UNION CHIEFS NOTIFY LABOR BOARD OF STRIKE INTENTION

SAY WAGE DECISION IS UNJUSTIFIED AND WILL SANCTION STRIKE IF VOTED

CONFERENCES WITH MINERS' LEADERS FOR JOINT ACTION ARE BEING ARRANGED

(By United Press.)  
Cincinnati, June 19.—Rail union and mine workers chiefs were today approving the conference on joint strike action with confidence that it would develop practical measures of cooperative action helpful to both groups.

While Bert M. Jewell, head of the rail union executive board and John L. Lewis, miners chief, declined to discuss specific measures that might be adopted, both said there were "a number of practical things that could be done."

The first formal meeting will occur Tuesday night. It will be followed by a public statement, which it was predicted today will leave no doubt as to the intention of the rail union leaders determination to "go through with the strike if the 1,200,000 workers cut vote for it."

The rail leaders last night formally notified the labor board that the recent wage decisions were unjustified and that union sanction would be given for a strike if the men voted for it.

Lewis in discussing the situation said the workers are being driven to cooperative action in self defense, and declared the striking coal miners would never compromise, and said the rail workers have now no alternative "but to fight". The miners and rail workers together are fighting for all of organized labor, Lewis said, and the joint action will have a tremendous moral effect in stopping the drive against organized labor.

## GROUP GATHERING OF SUNDAY SCHOOLS

W. J. Smith, Missionary of American Sunday School Union, Laying Plans for Annual Event

AT LAKE EDWARDS, JULY 19TH

Rev. John O. Ferris, Superintendent of Northern District, Will Preach Sermon  
(Contributed)

W. J. Smith, missionary of the American Sunday School Union, is now laying plans for the annual group gathering of Union Sunday school, to be held again this year Sunday, July 9th on the Lake Edwards school grounds. There are eight Sunday school in this group, and each school will have their part on the program. All the schools are practicing the same songs, so the singing will be some thing grand.

In the morning at 10:30 o'clock there will be an open air song service and gospel meeting. Rev. John O. Ferris, superintendent of the Northern district will preach the sermon. At this service there will be special music and singing. The Nisswa Sunday school orchestra which was enjoyed by so many at our last two gatherings will be with us again this year.

J. J. Borst the wide awake superintendent of the Nisswa Sunday school has promised to round up the members of the orchestra and get them in fine shape for service on that day, and there will be the presenting of certificates to a class of Sunday school workers from the different schools who have completed the society's training course. Sunday school teaching and management.

After the morning service there will be a basket dinner, the schools forming in little dinner parties under the trees. Immediately after dinner there will be a Sunday school parade which in itself will be worth going miles to see, all the schools in line abreast, each school carrying a banner and singing as they march.

The afternoon program will be jam full of good things, and among them will be an address by Rev. John O. Ferris, superintendent of the Northern district comprising Minnesota, North Dakota and Montana.

If you are a lover of children and the things that uplift and make life worth living, drive out to the Lake Edwards school grounds Sunday, July 9th. A complete program will be printed later. Watch for it.

## TAG! YOU'RE IT!! JUNE 30, JULY 1

An old fashioned game of tag will be held on the streets of Brainerd for two days, beginning Friday, June 30th, the proceeds to be used to help defray the expenses of the Fiftieth Anniversary celebration and Home Coming week, July 3rd to 9th. Tremendous interest is being taken in Brainerd's mammoth birthday party, and here is a chance for every man, woman and child in the community to do their share toward making it the success anticipated.

This is "our" celebration, and it is up to "us" to put it across. And "us" does not mean just the members of the various committees in charge, but every resident of the city, whether Brainerd has been their home a week, or for the full fifty years of its vigorous life.

On this day young women of our home town will offer for sale attractive butt ons commemorating the occasion. Give a substantial return and wear the button proudly. Let's show that Brainerd really means something to us—that we are ready to back it up, not only in faith, but in works—and dollars.

Fred Coenen waived examination and was bound over to the federal court at Duluth on bonds of \$500.

Lyle Binder and Robert Delahunt gave temporary bonds, demanded an examination and the hearing was set for 10 a. m., June 26.

## MONKEY IS THE PERFECT HUSBAND

(By United Press.)

London, June 17.—Man, after his descent from the monkeys, must climb back up again before he can be the perfect husband.

Dr. Bernard Hollander, noted British psycho-analyst, in taking this view, agreed heartily with New York's physicians and the world's divorce courts that the ordinary man not only can, but does love two women at the same time.

"When we can love like the monkeys, we shall be nearer the perfect monogamy," Dr. Hollander said. "Man constituted as he is now can and does love more than one woman simultaneously.

"I agree with Dr. Andre Tridon, of New York, that the ordinary man can share his love between the tender and true woman, who makes the ideal wife, and a second woman, who thrills him and stirs his emotions.

"The ideal of mankind should be monogamy, but the love of two, or even more women at the same time is a psychological fact that cannot be controverted.

"It is not merely a physical fact. A man who genuinely loves his wife, may be attracted by another woman by purely emotional or psychological influences. It is not merely a matter of sex impulse.

"We are slowly ascending towards the more perfect monogamy. I believe that human impulses are polygamous, but education has taught us that the one mate is best for mankind.

"We have much to learn from the lower orders of the nature of perfect monogamy. Among anthropoid apes, for example, you have an almost perfect example of the single attachment of male and female. The mother love of the ape is unparalleled in the animal world, and scarcely equalled by

mankind. Birds, too, are perfect monogamists.

"We need a restoration of the plain old-fashioned sense of loyalty. The loyalty that makes men stand by each other in peril should make men stand by their chosen partner in the battle of life. It is all a constant war between temperance and control.

"The war has created an artificial sense of independence among women, but it is the national home-life environment that will prevail over what I believe is purely a passing phase."

## STRONG TEAMS ENTER STAGG FIELD MEET

(By United Press.)

Chicago, June 17.—Premier athletes from all parts of the United States gathered here today for the national intercollegiate meet at Stagg field.

California will represent the west with a full team of ten men, while Yale and Harvard will the East's chief entries. Yale and Harvard will not be represented by full teams, however.

Pennsylvania has entered two men, her star distance runners, who showed strong at Cambridge, and Notre Dame as usual, has a team of star trackmen on hand.

Full teams from every college in the Big Ten including Michigan, Chicago, Northwestern, Purdue, Ohio State, Minnesota, Wisconsin, Iowa, Illinois and Indiana will compete as will squads from all schools in the Missouri Valley conference.

Alonzo A. Stagg, athletic director of the university of Chicago, who is supervising the meet, predicted that many records would be shattered.

This Bird Is Fat.

Young albatrosses are so laden with their own fat that one of them may go five months without taking any nourishment, says the American Forestry Magazine. This is likewise true of young pigeons and certain sea fowl.

## CAUSE and EFFECT

Chiropractic goes several links farther back in the chain of cause and effect. While the germ theorist stops at the susceptibility of the patient, the chiropractor says that the susceptibility is a result of a lack of vital power or mental impulses, due to pressure on a nerve caused by a misaligned vertebra; and that when the vertebra is adjusted, the normal powers will again flow over the nerve, the effected will again become normal and the disease germs and every other incidental effect will disappear.

## "THE FATHER OF BRAINERD"

ALL old-time residents of Brainerd who read the above caption will recognize at once the appellation by which Hon. Lyman P. White, one of the earliest settlers in Brainerd, was generally known. He was also frequently referred to as "Brainerd's grand old man," but among the sturdy pioneers of "the early days" was familiarly and affectionately known simply as "Pap" White. Mr. White lived to be 94 or 95 years old, and was active and vigorous up to within a few days of his death, some twenty years ago, at his home on the corner of North Seventh and Juniper streets.

No man had more to do with the early history of Brainerd than Lyman P. White. For many years he was an outstanding figure in the community. He built the first dwelling house in the city, in which he lived until his death. His daughter, Mrs. H. H. Barber, now a resident of Minneapolis, was the first white child born in Brainerd.

To Mr. White, who was for many years agent of the Puget Sound Land Co., the city is indebted for its beautiful Gregory park, as through his influence the land was donated to the city by the land company. He was also instrumental in securing a gift from the same company an entire city block for the St. Paul's Episcopal church, and if we are not mistaken, the Congregational church at his suggestion also received a similar gift.

He was for a quarter of a century or more active and prominent in public affairs, and in the work of building up of the city and developing the surrounding country. He was essentially a man of action. It was not our purpose in writing this article, however, to attempt to give even a bare outline of Mr. White's part in the early history of Brainerd. Our sole object was to call attention to a gross, but perhaps unintentional injury to his memory.

After Mr. White's death the family turned over to the city authorities a large, lifelike portrait of him in oil. This portrait hung in the Council chamber of the new city building for some time, but disappeared several years ago. The writer of this article, upon making inquiries, after considerable trouble learned that the portrait was in the attic of the city building. We could not believe it, and to learn the truth visited the dingy attic in company with City Engineer Campbell and Janitor Buley. Here we found the missing picture among a lot of rubbish—discarded, abandoned. "So soon we are forgotten!"

The picture is in good condition except that an old rent in the canvas below the painting has been torn loose, and both the picture and the frame are of course coated with dust and need cleaning. The torn place could be repaired, as it was before. It occurs to us that in these days when we are making great preparations for the celebration of the 50th anniversary of the city of Brainerd, we should show more respect for the memory of the "Father of Brainerd" than to permit his portrait to remain in a pile of rubbish and refuse in the attic of the city building. The portrait should be taken care of for the credit of our city.

We shall not attempt to explain how the portrait came to be in the attic; it is enough to know that it is there. We believe the good people of Brainerd will agree with us that this historic painting should be restored and given a prominent position in the city hall. Surely space could be found for it.

## DEMOCRATIC SELF-REFUTATION

We have noticed that some of the leading Democratic papers that are continually clamoring for a repudiation of the Republican administration are at the same time publishing in their news columns statements that refute their claims that the country is suffering from industrial depression. In flaring headlines one Democratic paper proclaims that "Unemployment in New York is Almost a Thing of the Past," and in the body of the article informs the public that "The old deserted places in New York are the waiting rooms of the employment agencies." That is said of our largest city, where unemployment always finds its first and last manifestations. Following the announcement above, the Democratic editor informs his readers that "The reason is that in most lines there are more jobs than men, and those who are working are going from one place to another to find the job that pays most."

Undoubtedly, if these statements were published in a Republican paper, they would be discredited as political propaganda in support of the administration, but, printed by an ardent Democratic editor, they cannot be discounted on the ground of partisan bias. They are printed by the same paper which, soon after Harding was inaugurated, was giving great prominence to reports of millions of unemployed. The stories of unemployment were undoubtedly exaggerated for political effect, the effort being to create the impression that the Republican administration was responsible, notwithstanding the administration had just assumed control of the affairs of the Government.

It was a fact, however, that there was much unemployment eighteen months ago, it is also a fact that there is practically none now. Of course, we always have with us some men who never have a job. We had them even during the war-time emergency.

## TARIFF WILL STOP PROFITEERING

SENATOR CALDER, of New York, insists that the tariff bill should be passed as soon as possible to stop profiteering. "I want to say that before the Finance committee is through with this discussion," he said, "the country will be shown definitely and completely that the peace time profiteering of today by importing interests makes war profiteering fade into insignificance."

Senator Calder charged in the Senate that the interests which are now shouting so loudly against tariff legislation "are the ones that are making from 100 to 2,000 per cent profit on merchandise purchased abroad and sold to the American consumer."

IMPORTERS of foreign goods are supplying the argument with which Democrats combat the Republican effort to enact a protective tariff law. The importers would be the chief beneficiaries of success of the tariff filibuster.

## MUST NEVER BE OFF GUARD

Men Who Train or Care for Wild Animals in Circuses Cannot Afford to Relax Vigilance.

There's a saying in the circus zoo when a new attendant, disregarding the warnings of old-timers, becomes careless while working about the cages. "Here's a new animal trainer," the veterans will remark, as they watch the fresh helper petting a tiger or a leopard. They know that it is only a matter of a few days until the "cat" will lash out with its claws unsheathed and rip the arm of the newcomer. They also know that nothing will teach this type of attendant the alert carefulness necessary in handling wild beasts but an ugly scratching. They can only hope that the man's hurts will be slight. He must have a lesson. He must realize that all animals are dangerous at all times, even if some are more so than others.

One often hears it contemptuously remarked, writes Frank Braden in Popular Mechanics Magazine, that such and such a beast in an act is "just a mangy, toothless old lion," but often that mangy, toothless old lion, because of its rage, is more dangerous than its mates in their prime. The old lion is testy, and no matter what its years, it carries a wallop backed by rippling claws. Some of the world's foremost trainers, working with the same beasts in acts year after year, have paid for the slight carelessness that familiarity with and affection for their jungle pets have insidiously brought about. At an unexpected diversion—the overturning of a pedestal, for instance—the animals have leaped upon their mentor, but with the element of complete surprise absent, no real wild-animal expert is caught completely unaware by a beast's leap.

## KNEW ALL ABOUT "LA GRIPPE"

People of the Eighteenth Century Suffered From Its Attacks as Do Those of Today.

Amid all our sufferings from the "grip," "Russian influenza," "blitz katarrh," "Spanish influenza," "flu," et id omne genus, the name and writings of Sebastian Mercier are too much forgotten. In his picturesque "Tableau de Paris" is to be found the following passage on the "grippe," written in 1787, which might have been written today:

"Almost every year toward the middle of November occur catarrhal indispositions caused by the presence of a humid and cold atmosphere and fogs which suppress transpiration. Many die of it, but the Parisians, who laugh at everything, call these colds the 'grippe,' the 'flirt,' but the laughter three days later is himself 'gripped' by it and goes down to the grave."

"Passing from old rooms and theater halls to the open air makes this suppression of the transpiration almost unavoidable. The new fashion of wearing long cloaks is excellent. It gives protection against the cold. Taking good exercise is even a surer remedy. The women who are compelled to wait some time for their carriages—those charming, delicate women I see shivering along the staircases and porticoes—should consider that their pelisses are not sufficient to protect them against mishaps."

What would he have said to the abbreviated skirts of today?

## Giddap.

A traveled friend has observed how differently the horsemen of different lands urge on their steeds. The British elick their tongues; the Norwegians make a sound like a kiss; the Arabs roll a long "r" and the Neapolitan coachman barks like a dog.

## Fish Killed by Sewage.

The other day, just as the tide in the Thames was turning from ebb to low and the fish were coming up the river again, a very heavy rain, following several days drought, suddenly flushed the sewers of London, and the rush of foul water killed the fishes by the million, so that the dead bodies covered the banks for miles.

## STATE'S FINAL ARGUMENT TODAY

Graham Torrance, County Attorney of Beltrami County, Addresses Jury in Robert Miller Case

### GOES OVER EVENTS OF TRAGEDY

County Attorney Submitted to Judge B. F. Wright Three Charges for the State

Before a growing audience in the court house and listened to attentively by the jury which for the past week has heard testimony in the case of Robert Miller, of Baudette, charged with first degree murder of Alfred W. Fenton, County Attorney Graham Torrance of Bemidji Monday morning commenced his closing argument to the jury.

Previously Judge B. F. Wright of district court, who is hearing the case on a change of venue from Beltrami to Crow Wing county, at the close of taking testimony received the three charges submitted by the state and ruled that Charges No. 1 and 3 would be given by the court substantially as asked by the state while No. 2 had some modifications made.

"The time has now come in the trial of this case," said Mr. Torrance, addressing the jury, "when it is my duty, right and privilege to talk to you about the evidence. The trial is closed so far as taking the evidence is concerned. All the testimony is now before you. When you consider the value of human life you are considering the taking of something we cannot give or restore. The law of God and man reads 'Thou shalt not kill!'"

He described the home life of Alfred W. Fenton, age 25, with his girl wife and 14 months' baby; how he sought to make a home for himself and family. The Fentons went into the country the winter of 1919. In May of 1920 they came to Baudette. When Fenton's shop work as a mechanic ceased, he operated a sawing around the countryside.

Fenton, said Mr. Torrance, was a left handed man. He sawed wood the eventful day he lost his life and started back on skis with a gun on his shoulder. When Fenton's body was found it lay in an open meadow with ghastly wounds in the stomach and the top of the head blown off.

Fenton came along in broad daylight, said Mr. Torrance. The sun was shining as he came to the Miller meadow. He saw Nick Siminovich to the east with his team. Nick knew the Millers as they were his next door neighbors. He saw them jump off the hay. Nick, said Mr. Torrance, saw Robert Miller look at the man coming from the north. He heard a shot ring out from the Miller's. Nick saw a man walking and swinging his gun.

In three seconds, said Mr. Torrance, Nick heard another shot. Nick saw the man stop and hesitate. At that moment Nick caught a glimpse of an owl flying about. He heard a third shot and saw the man lying on the snow, with his hands and feet moving about.

Fenton's bowels and stomach had been torn open so a doctor could put his clenched hand in the opening. The man's head was shattered and the top blown off.

When Nick saw a man walking across field so shot down, said Mr. Torrance, Nick ran across the meadow to the Miller's; and said: "What you do?"

"Robert", said Mr. Torrance, "grabbed hold of Nick and said to Nick: 'Look out, he'll shoot you!'"

Mr. Torrance scored the Miller's, saying they thought more of their load of hay than the dead man, as they first took their hay home two miles. In detail Mr. Torrance went over all points of the tragedy, claiming the evidence showed that George Miller had not shot until commanded to do so by his brother, Robert Miller.

Mr. Torrance referred to the enmity between the Miller's and Bowman, and that to Robert Miller it seemed a foregone conclusion that Bowman was coming across the fatal field.

After Mr. Torrance finished his plea, the defense was heard. M. J. Daly of Perham making the plea for Robert Miller. Mr. Daly spoke from 10:27 a. m. to 12:30 p. m.

Mr. Daly in his summing up of the case claimed the Miller's thought it was Bowman who was coming across the field. Miller had previously had Bowman arrested on a charge of taking hay and the case was to come up in February. Some witnesses in their testimony, it was stated, had said Bowman made threats.

The claim was advanced that Fenton was accidentally struck in the stomach by one shot and that Fenton then took his own rifle and shot himself in the head, committing suicide.

Soderlund for Brainerd Landed in the Hall of Fame by Pitching a No Hit Game Until 9th

Brainerd ran Verndale off their feet on Sunday afternoon at Verndale and gave the potato town a white-wash, the score at the end of the ninth frame reading Brainerd 7, Verndale 0.

Brainerd harvested ten safe bingles off Miller, former Park Rapids' star mound artist.

Soderlund pitched a no hit game for Brainerd until the ninth inning when Miller popped up a little fly which should have been picked off by the second baseman, shortstop or pitcher, the ball landing safely between these three worthies. And that was the only hit Verndale got and accordingly Soderlund gets a front seat in the hall of fame in which Les Bush has a season ticket.

Imgrund made a great circus catch of a line drive, catching the ball and allowing it to balance on the back of his neck. After making this kind of a billiard shot, after kissing his head, he allowed the ball to freeze to his mit.

Molstad was the batting star of the day, getting four hits out of five times to bat. The local team is playing a great game and the fans were much pleased with Sunday's battle victory.

Brainerd will play their opening game at home on Sunday, July 2 and a Duluth team will oppose them.

The Brainerd-Verndale game by innings:

Brainerd	.....012 030 001—7 10	r h
Verndale	.....000 000 000—0 1	

The box score will be published tomorrow.

## BRAINERD WINS OVER GLENWOOD

Horse Shoe Throwers of Brainerd Won 15 Games, Glenwood One, on Occasion of Railroad Picnic

### THEY BUMPED US IN BASEBALL

Annual Railway Shop Picnic Was One of Unalloyed Pleasure to All Men and Families

When the Northern Pacific shop men went to Glenwood on Saturday they had with them two Brainerd teams, which they hoped would bring glory and favorable advertisement to Brainerd.

It was only by the narrowest margin that the Glenwood ball team was able to come out victorious. And Brainerd's team deserves honorable mention for the good fight they made after getting off to such a poor start in the first inning.

But if the Glenwood team was lucky in winning the ball game they surely got all the hard breaks that a team could get when their team of horse shoe pitchers played the Brainerd team and only won one of the 16 games played.

The Glenwood horse shoe team are not satisfied and are coming back to play Brainerd during the home coming week at which time they will try and turn the tables.

The leading ringer men were Lester Peterson with 58, Kelsven 56 and Emil Neuman 51.

The individual scores were:

Lester Peterson vs B. Savre 50-28.

Lester Peterson vs J. H. Thoreson 50-25.

Lester Peterson vs H. Deaton 50-24.

Lester Peterson vs E. Neuman 50-40.

Kelsven vs H. Deaton 50-22.

Kelsven vs E. Neuman 50-34.

Kelsven vs B. Savre 50 to 8.

Kelsven vs Dr. Thoreson 50-29.

Clayton Larson vs Dr. J. H. Thoreson 50-23.

Clayton Larson vs B. Savre 50-33.

Clayton Larson vs E. Neuman 50-39.

Clayton Larson vs H. Deaton 50-40.

Dave Frayer vs E. Neuman 50-43.

Dave Frayer vs H. Deaton 50-38.

Dave Frayer vs Dr. J. H. Thoreson 50-18-50.

Dave Frayer vs B. Savre 50-35.

Brainerd's 50th anniversary and home coming was well advertised by Mayor F. E. Little and all other Brainerd people. The mayor in addition saw the editors of both weekly papers and in other ways sought to encourage Glenwood people to come to Brainerd July 3 to 9.

The first train out Saturday morning had trouble with an air hose and was delayed somewhat. Within a short time after the first section arrived in Glenwood, the second followed and the crowds from both trains made quite an entry into the small town.

The program of athletic sports took place near the pavillion. The band played a concert program of half a dozen selections up town. Everybody at the picnic had a fine time. There were no accidents of any kind.

Returning home the first section arrived about 10:40 p. m. and the second about 11:25 p. m.

## AMUSEMENTS

**Here's Man Who Never Saw a Woman**

Although Jacques Lenoir was twenty-five years old, he had never seen a woman.

That is the unusual situation which dominates "The Lotus Eater," a First National attraction, starring John Barrymore, and personally directed by Marshall Neilan, which is now the feature at the New Park theatre for a run of two days, starting today.

Barrymore, the foremost actor of the age, plays the part of Leno, whose father, because of a domestic tragedy had made the young lad promise not to leave their yacht, the "Psyche," until he was twenty-five years of age.

So the youth had spent the intervening years traveling the seven seas and entering all the ports of the world for supplies, but never stepping ashore and never seeing the face of one of the opposite sex. He hired tutors to travel with him, and in that manner obtained a liberal education. "The Lotus Eater" is a thrilling story of love, romance and adventure, and is from the pen of Albert Payson Terhune, with the subtitles by George Ade.

### Kenneth Harlan Again Leading Man

Kenneth Harlan, who plays opposite Constance Talmadge in the star's latest picture, "Polly of the Follies," by John Emerson and Anita Loos which will be shown at the New Park on Wednesday and Thursday, is a sterling example of the self-made actor who has forged his own way to the front.

Born and brought up in New York City, the leading man found his leapings in stage productions at an early age. He was seen in theatricals with Gertrude Hoffman and found important parts in the stage versions of "The Fortune Hunter" and "The Country Boy."

Harlan is an excellent type of leading man with flashing black eyes and dark hair. He weighs 185 pounds and measures well over six feet.

### Truths We Never Hear.

"Your daughter has the worst voice I ever heard. She ought to have it filed."

### Radio in Yosemite.

Yosemite's granite cliffs rise straight into the air for 3,400, 4,000 and occasionally 5,000 feet. Yosemite valley is literally a "hole in the ground," and some wireless experts declared local conditions were entirely against successful operation of a wireless station there. Nevertheless, valley folk recently have been getting news reports, weather predictions, market quotations and lots of good music right out of the air, with no other aerial than wires strung between two of the giant trees with which the valley floor is forested.

Edwin J. Symmes, of Alameda, put in the first wireless set for his own amusement and has received messages from several score damped and undamped wave stations, including Honolulu and Catalina Island. Government authorities also have put in a station, which will be used to keep in touch with the outside world.

### Compact Lantern.

Measuring but six by five and one-half inches, an electric lamp has been placed on the market and is available for general use. The case is made of heavy metal thoroughly nickel-plated. A standard low-voltage tungsten lamp is used, well protected by a wire guard. A ball serves as a handle, and the hook on it permits it to be hung on a rod, nail or hook. The ball can be rotated, so that the lantern may be turned to any angle desired and carried upward, downward or sideways.

With the dry battery used in this lamp it will give about 20 hours' continuous service and about 40 hours' intermittent service.—Washington Star.

### He Had Got Rid of It.

Barney Barnard is responsible for the story of the Gentle who bought a packet of cigarettes from Mr. Isaac Isaacstein, his regular tobaccoist. "Isaac," said the customer, after the purchase had been completed, "you gave me a bad quarter in my change the other night." "Impossible," answered Isaac. "I never took or gave a bad coin away in my life. With my 40 years' experience in handling money, I can tell by the touch at once; physical instinct, my boy. I suppose you managed to get rid of it?" "Yes," was the reply. "I have just paid it to you for these cigarettes."

### Consider the Bonus Bill After Tariff Legislation

(By United Press.)

Washington, June 19.—The soldier bonus legislation will not be considered until the tariff measure is disposed of, it was decided at a conference for republican senators today.

By a vote of 20 to 9, the conference defeated a motion by Senator McCumber, North Dakota, chairman of the finance committee, to lay aside the tariff and take up the bonus for immediate consideration. However, at-

ter defeating the McCumber motion, the conference passed a resolution 27 to 11 pledging to consider the bonus as soon as the tariff was completed.

### Theatre Safe Robbed

(By United Press.)

St. Paul, June 19.—Robbers last night smashed the safe of the Park theatre here and escaped with \$500, the receipts for Saturday and Sunday.

The safe crackers used a sledge hammer to knock off the combination. They entered through a rear window.

### FARMER SHOOTSON; KILLS SELF

(By United Press.)

Cleveland, Ky., June 19.—C. B. Brooks, 65, farmer, shot and killed himself today after slaying his son James, 30.

Before he committed the suicide, the elder Brooks tried to shoot his wife and daughter-in-law. The shots fired missed the two. The father and son had engaged in an argument over management of the farm, which is about seven miles from here.

### Greatest of Pictures at Lyceum

"Over the Hill," the picture which is hailed throughout the world of motion pictures as the greatest of them all, will begin a run at the Lyceum theatre tonight and will continue for two days only. This remarkable photoplay, produced by William Fox, has been taking the country by storm and is smashing every previous

record for continuous runs wherever it is shown.

It is safe to say that no picture ever shown here has created the interest aroused by "Over the Hill." Local motion picture devotees have been wanting it for many months and its engagement here is the method Manager Hiller of the Lyceum theatre has taken to keep faith with his patrons, whom he had promised the very best

pictures the screen affords.

As an example of the demand for this picture, "Over the Hill" recently played simultaneously in twenty-six theatres in Detroit, each of which was packed at every performance.

Although unusual crowds are expected to attend the run of the picture in this city, their comfort will be safeguarded. There will be a daily matinee each day at 2:15.

## For Better Citizens Better Service

TO promote the safety first movement, the Standard Oil Company (Indiana) has created within its own organization 24 separate and distinct inquisitorial bodies to investigate accidents involving Company motor equipment.

These bodies are called "Safety Courts."

The primary purpose of these courts is to reduce the hazard of automobile accidents on the public highway. This is directly in line with the policy of the Company to help the employee to a better understanding of his obligation to his fellow citizens.

The Court meets weekly and before it must appear any employee, whether manager or truck driver, who has been involved in an accident during the preceding week. The employee comes into court as defendant with his immediate superior as his attorney. The Chairman of the Safety Council is the judge. Other members of the Council serve as jurors.

When the investigation shows that the employee has been guilty of carelessness in observing traffic laws, penalties are fixed and punishment assessed by the jury. The punishment is often as novel as the plan itself. For instance, a truck-driver recently convicted of carelessness was removed from his position and sentenced to work for two weeks in the Company warehouse as a common laborer.

The plan is in operation throughout the 11 Middle Western States served by the Standard Oil Company (Indiana) and has been responsible for reducing automobile accidents approximately 50 percent.

The spirit which pervades the "Safety Court" is to inspire employees with a sense of their responsibility to the community. As in the case of the Annuity System, which gives the employee a feeling of security regarding his future, and in the case of the Stock Investment Plan to promote the desire to save, the "Safety Court" has as its object the making of better and more responsible citizens who will render continuous and greater service to society.

The Standard Oil Company (Indiana) is continually studying methods for improved service through adjusting its organization to the constantly changing needs of the people of the Middle West.

## WRECKS NERVOUS SYSTEM WITH HEADACHE DOPE!

### Victim Thankful for Recovery After Taking Well-Known Remedy

Any reliable physician will tell you that thousands of people are today suffering from various serious ailments brought on by the use of so-called headache tablets, powders or capsules. These remedies are only temporary in their nature and leave the system in an exhausted condition. Read what one victim of headache powders has to say on the subject:

"I feel that if anyone can recommend Dr. A. W. Chase's medicines I certainly can. I suffered for ten years from severe headaches, and although I took all kinds of headache powders they just relieved me at the time. I became very nervous and run down and everything seemed to trouble me. I have taken eighteen boxes of Dr. A. W. Chase's Tonic Pills and it has made an entirely new person of me. I feel that I could not have lived without them. I do not have one headache now for every

hundred I used to have, and my nerves are good and strong." Mrs. Tena A. Smith, Country Harbor Cross Roads, N. S.

Dr. A. W. Chase's remedies can be obtained at any first class drug store. To be sure of getting the genuine, see that the portrait and signature of A. W. Chase, M. D., are on each box. This trade mark is your protection against imitations and substitutes. —Advertisement. 6
